PROFESSIONAL SUMMARY

Detail-oriented Front-End Web Developer experienced in creating **mobile-friendly, accessible, and SEO-optimized web applications**. Proficient in **HTML, CSS, Tailwind CSS, JavaScript, and React**, with solid knowledge of **backend integration using SQL and RESTful APIs**. Skilled in **UI/UX implementation, version control (Git/GitHub)**, and writing **clean, maintainable, and scalable code**. Committed to developing **efficient, high-quality digital solutions**.

SKILLS

HTML5	CSS3	JavaScript (ES6+)	Tailwind CSS	Bootstrap	React.js	RESTful APIs
Git/GitHub	Team Collaboration	Accessibility (WCAG)	SEO Optimization	Unit Testing		
Problem-Solving	Modular Design	Adaptability	Detail-Oriented	Responsive UI/UX		
SQL	jQuery	Data Structures	Cross-Browser Compatibility	Fluent in English/Hindi/Urdu		

EXPERIENCE

AY Software Development – Hyderabad

December 2023 – May 2025

Front-End Developer

Collaborated as a Front-End Developer to plan and implement **user-centric, mobile-responsive** web interfaces across multiple client projects. Focused on modular design, accessibility, and performance optimization to deliver **high-quality, scalable web solutions** aligned with business goals.

- Built a mobile-friendly web application using **HTML5, CSS3, Tailwind CSS**, and **JavaScript**, boosting speed and usability by **30%**.
- Built **modular, reusable UI components**, cutting project turnaround time by **25%**.
- Streamlined **front-end performance** and **SEO**, reducing load time by **20–25%**.
- Governed **Git/GitHub** for version control to ensure smooth team collaboration.
- Leveraged Chrome DevTools for cross-browser **testing** and **debugging**.
- Developed **clean, scalable, and well-documented code**, improving maintainability.
- Partnered with UI/UX designers to deliver **pixel-perfect** interfaces, **ensuring quality, scalability**, and **cross-browser compatibility**.
- Integrated **RESTful APIs** and managed data operations using **SQL CRUD operations**.
- Stayed updated with **emerging web technologies** and **performance optimization techniques**.

Freelance Experience in KSA

DarElite—Real Estate

Visit Website

- Enhanced and implemented a [responsive real estate website](#) with dynamic content, using [Supabase](#) as a backend.
- Enabled real-time updates by managing [property listings, project highlights, and client logos](#).
- Increasing [speed, scalability, and mobile performance](#), reducing load times by **25%**.

InnoLiving - Safer, Smarter, Effortless Home

Visit Website

- Built a [multilingual website](#) for a home automation company with [RTL Arabic support](#).
- Showcased [Safety, Comfort, and Control](#) service packages through intuitive [UI layouts](#).
- Expanded [responsive booking/contact forms](#), enhancing user engagement by **30%**.
- Ensured [mobile-first design, fast load speeds](#), and seamless cross-device compatibility.

PERSONAL PROJECTS

Sundown Studio - Optimized clone of the Sundown Studio website built with HTML, CSS, and JavaScript, featuring smooth animations, transitions, and UI effects.

- [Live Demo](#) - <https://ahmedhasanx3.github.io/SundownStudio-Clone/>
- [Source Code](#) - <https://github.com/ahmedhasanx3/SundownStudio-Clone>

Carzone - User-centric car dealership website built with HTML, CSS, and JavaScript, featuring car showcases, Swiper.js carousels, parallax effects, and an interactive UI.

- [Live Demo](#) - <https://ahmedhasanx3.github.io/Cars/>
- [Source Code](#) - <https://github.com/ahmedhasanx3/Cars>

The Golkonda Hotels - Designed a responsive web interface of a hotel landing page using HTML, CSS, Bootstrap, and jQuery. Features included image sliders, smooth animations, and a functional booking form.
